Summary

Full Stack Web Developer with a background in arts and fitness, using a combination of creativity and unique problem-solving skills to develop fun user applications. Excellent communicator and great under pressure with extensive experience as a professional dancer. Excels at front-end UI, meshing colors, themes, and design eloquently.

Technical Skills

Languages: HTML, CSS, JavaScript, jQuery, API documentation, node JS, MSQL

Projects

Ballads and Brews | https://github.com/buley004/ballads-and-brews

- Application that allows user to search for a local concert happening *that* day/night along with restaurants and bars within a tight mile radius of the venue
- User does not have to use more than one search engine to plan their night; everything is included on one page
- Languages used: HTML, bootstrap, CSS, javascript, jQuery, API documentation
- Core responsibilities included:
  - utilizing band and restaurant API's to find shows and locate food/drinks close to the venue
  - writing material for the HTML and CSS design

Experience

Employee   2016-Current
Pure Barre   Seattle, WA and Los Angeles, CA
Teach barre fitness classes to clients aged 18 and up of all fitness levels. Use leadership and communication skills to be a positive role model in the Seattle fitness community. Act quickly and efficiently between saying cues, changing choreography, dimming lights, switching the song, correcting clients. React quickly and positively when certain clients need more attention than others.
Key Accomplishments:
- Classpass's best barre teacher in 2017 - https://classpass.com/blog/2017/02/01/best-barre-instructors-los-angeles/
- Consistently receives praise from colleagues and clients on impeccable timing, great musicality, and friendly nature

Employee   2015-Current
Hollywood Dance Shoot   Los Angeles, CA
Choreograph and photograph photoshoots for dancers aged 5 and up over a 12 hour work day. Use Nikon camera, lightroom, and photoshop daily, problem solving small technical issues through out the day. Edit photos for our ever-growing social media account and interact with other users on Instagram.

Education

Bootcamp Certificate: University of Washington, Seattle, WA
6-month full-stack web development course focused on gaining technical programming skills in HTML, CSS, JavaScript, API documentation, node JS, SQL Databases
Bachelors of the Arts and minor in business: Loyola Marymount University, Los Angeles, CA
